

On July 6th, 2008, the Omaha Sports Academy will open and become Omaha's first full service youth basketball and volleyball facility. In bringing this facility to Omaha, it is our hope that we can provide an opportunity for all of Omaha's youth.

Our mission is to provide a fun and competitive environment that stresses effort and development. We understand that developing kids is a marathon not a sprint. Our philosophy is that winning one game is not nearly as important as developing kids both socially and athletically for the rest of their lives.

Our programming includes select teams, Academies, summer and winter camps, school's out camps in the fall and spring as well as open gym time and youth leagues.

To provide opportunities for kids that couldn't otherwise afford to participate in our programming, we are introducing "Academy Kids".

Academy Kids will provide tuition fees for those kids who would like to participate and can't afford to participate in our programming.

I would love to support "Academy Kids" with a contribution of:

____ \$ 25.00

____ \$ 50.00

____ \$ 100.00

____ \$ 250.00

____ \$ Other

Anything you can do to help to make less fortunate kids have this wonderful opportunity would be greatly appreciated. Donor's will be recognized in the facility or can choose to remain anonymous.

Thanks so much for helping to make the possibility of all kids' dreams come true.
